01 / 10

Speed to lead

Answers new enquiries on nights and weekends with real meeting times, and logs them in your CRM. Nothing sends until you approve.

> WHY IT RANKS HERE
>
> **The customer who messages at 9pm goes to whoever replies first.**

02 / 10

Chase invoices

Checks who owes you money and drafts the reminders. Plan payroll also chases overdue invoices before it readies the run.

> WHY IT RANKS HERE
>
> **Money owed is money you cannot spend.**

03 / 10

Close the month

Reconciles your books against payment processors, flags what does not match and writes a plain-English profit and loss for your accountant.

> WHY IT RANKS HERE
>
> **Needs a connected accounting tool to be at its best.**

04 / 10

Monday brief

Cash, sales, pipeline, your calendar and your top priority on one page. Anthropic's example posts it to Slack at 6:30am.

> WHY IT RANKS HERE
>
> **Start the week knowing the numbers.**

05 / 10

Proposal builder

Turns a voice memo and site photos into a proposal in your format, priced from your last three deals.

> WHY IT RANKS HERE
>
> **You check the price before it goes anywhere.**

06 / 10

Plan payroll

Checks you will have the cash, chases overdue invoices and readies the payroll run for you to submit.

WHY IT RANKS HERE

Staged for you. You press the button.

07 / 10

Check margins

The margin analyser is named in the May launch. Paste what you sold and what it cost and see which lines earn least.

> WHY IT RANKS HERE
>
> **You can try a rough version in a normal chat today.**

08 / 10

Social content engine

Plans next week's content, for example a two-week posting calendar with captions for your approval.

> WHY IT RANKS HERE
>
> **Useful, but a draft calendar is easier to replace than a late invoice.**

09 / 10

Grow pipeline

Finds prospects who resemble your best customers and writes outreach in your voice.

> WHY IT RANKS HERE
>
> **Read every message before it goes out.**

10 / 10

Build agent

Turns a recurring manual task into a workflow you can run by name or on a schedule.

> WHY IT RANKS HERE
>
> **Last because you need to know what to automate first.**
